## REPORT OF THE BOARD OF DIRECTORS AND BOARD OF MANAGEMENT

*For the accounting period from 01/01/2025 to 30/06/2025*

**3. Members of the Board of Directors, Board of Supervisors, Board of Management and Chief Accountant (continued)**

Legal representatives of the Company during the period and to the date of the interim statements as follow

Mr      Pham Thanh Tung      Chairman

**4. Independent Auditor**

The accompanying Interim Financial Statements for the period from 01/01/2025 to 30/6/2025 have been reviewed by Branch of MOORE AISC Auditing and Informatic Services Company Limited.

**5. Commitment of the Board of Directors and Board of Management**

The Board of Directors and Board of Management are responsible for the preparation of the Financial Statements which give a true and fair view of the financial position of the Company as at 30 June 2025, the results of its operation and the cash flows for the 6-months period then ended. In order to prepare these Financial Statements, the Board of Directors and Board of Management have considered and complied with the following matters:

- Selected appropriate accounting policies and applied them consistently;
- Made judgments and estimates that are reasonable and prudent;
- Prepared the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Directors and the Board of Management are responsible for ensuring that proper accounting records are kept and maintained, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the Financial Statements are prepared in compliance with the accounting regime stated in Notes to the Financial Statements. The Board of Directors and the Board of Management are also responsible for safeguarding the Company's assets, and hence taking reasonable steps for the prevention and detection of frauds and other irregularities.

**6. Confirmation**

The Board of Directors and the Board of Management, in their opinion, confirmed that the Financial Statements including the Interim Balance Sheet as at 30 June 2025, the Interim Income Statement, the Interim Cash Flow Statement and accompanying Notes, which expressed a true and fair view of the financial position of the Company as well as its operating results and cash flows for the accounting period from 01/01/2025 to 30/06/2025.

The Financial Statements are prepared in accordance with Vietnamese Accounting Standards and System.

*Hai Phong, 29 August 2025*

**For and on behalf of the Board of Directors and Board of Management**

**Pham Thanh Tung**

**Chairman of the Board of Directors**

No. A0625099-SXR/MOOREAISHN-TC

**REPORT ON REVIEW OF  
INTERIM FINANCIAL INFORMATION**

**To: SHAREHOLDERS, THE BOARD OF DIRECTORS, AND THE EXECUTIVE BOARD  
AAV GROUP JOINT STOCK COMPANY**

We have reviewed the accompanying Interim Financial Statements of AAV Group Joint Stock Company ("the Company") as prepared on 29 August 2025 from pages 04 to 39, which comprise the Interim Balance Sheet as at 30 June 2025, the Interim Income Statement, the Interim Cash Flow Statement for the 6-month period then ended, and the Notes to the Interim Financial Statements.

**Responsibility of the Board of Directors and Board of Management**

The Board of Directors and Board of Management of AAV Group Joint Stock Company are responsible for the preparation and fair presentation of the Interim Financial Statements in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and prevailing regulations applicable to the preparation and presentation of the Interim Financial Statements and also for the internal control which the Board of Directors and Board of Management consider necessary for the preparation and fair presentation of the Interim Financial Statements that are free from material misstatement, whether due to fraud or error.

**Responsibility of the Auditor**

Our responsibility is to express a conclusion on the Interim Financial Statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 - Review of Interim financial information performed by the Independent Auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Auditor's conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Financial Statements do not give a true and fair view, in all material respects, of the financial position of the Company as at 30 June 2025, and of the results of its operation and its cash flows for the 6-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting and the statutory requirements relevant to the preparation and presentation of the Interim Financial Statements.

**Other matter**

The report on review of interim Financial information is prepared in Vietnamese and English. In the event of any discrepancies or inconsistencies between the Vietnamese and English versions, the Vietnamese version shall prevail.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***7. Disclosure on the comparability of information in the Financial Statements:**

The selection of figures and information needs to be presented in the Financial Statements based on the principles of comparability among corresponding accounting periods.

**II. FINANCIAL YEAR AND REPORTING CURRENCY****1. Financial year**

The Company's financial year begins on 01 January and ends on 31 December annually.

**2. Reporting currency**

Vietnamese Dong (VND) is used as a currency unit for accounting records.

**III. APPLIED ACCOUNTING STANDARDS AND REGIME****1. Applied accounting regime**

The Company applies the Vietnamese Corporate Accounting Regime as guided in Circular No. 200/2014/TT-BTC dated 22 December 2014 issued by the Ministry of Finance and Circular No. 53/2016/TT-BTC dated 21 March 2016 amending and supplementing a number of articles of Circular No. 200/2014/TT-BTC.

**2. Disclosure of compliance with Vietnamese Accounting Standards and regime**

We conducted our accounting under Vietnamese Accounting Standards, Vietnamese Corporate Accounting Regime and other relevant statutory regulations. The Financial Statements were presented in a true and fair view of the Company's financial position and the results of its operations as well as its cash flows.

The selection of figures and information presented in the notes to the Financial Statements complies with the material principles in Vietnamese Accounting Standard No. 21 - "Presentation of the financial statements".

**IV. APPLIED ACCOUNTING POLICIES****1. Foreign currency transactions**

The Company translated foreign currencies into Vietnamese Dong at the actual exchange rate and book rate.

**Principles for determining the actual exchange rate**

All transactions denominated in foreign currencies that arise during the year (trading foreign currencies, capital contribution or receipt of contributed capital, recording receivables and payables, purchasing assets or expenses immediately paid by foreign currencies) are recorded at the actual exchange rates ruling as of the transaction dates.

Closing balance of monetary items (cash, cash equivalents, payables and receivables, except for prepayments to suppliers, advances from customers, prepaid expenses, deposits and unearned income) denominated in foreign currencies should be revalued at the actual rate ruling as of the balance sheet date:

**Principles for determining book rate**

When recovering receivables, deposits, collaterals or payments for payables in foreign currencies, the Company uses specific identification book rate.

When making payments in foreign currencies, the Company uses a moving weighted average rate.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***2. Principles for recording cash and cash equivalents**

Cash includes cash on hand, demand deposits, cash in transit.

**Cash equivalents** comprise term deposits, short-term investments with an original maturity of three months or less since investment date, high liquidity and are able to convert to a known amount of cash and subject to an insignificant risk of changes in value.

**3. Principles for accounting financial investments****Principles for accounting held-to-maturity investments**

Held-to-maturity investments include term bank deposits (including bills and promissory notes), bonds, preferred shares that the issuer is required to repurchase at a certain time in the future, and held-to-maturity loans to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are initially recognized at cost, comprising the purchase price and associated acquisition costs. After initial recognition, these investments are recorded at their recoverable value if doubtful receivables are not provisioned as per regulations. When there is firm evidence that all or part of the investment is unlikely to be recovered, the loss is recognized as financial expenses for the year/period, thereby reducing the investment value.

**Principles for accounting loans**

Loans comprise amounts under contracts, or loan agreements between two parties with the purpose of earning periodic interest and are recognized at cost, net of any provisions for doubtful debts. Provisions for doubtful receivables on loans are made based on the estimated loss value that is overdue or not overdue but may not be recoverable due to the insolvency of debtors.

**Principles of recording financial investments in subsidiaries, joint ventures, associates**

The investments in subsidiaries are recognized when the Company holds more than 50% of voting rights and has the power to govern the financial and operating policies in order to obtain economic benefits from the subsidiaries' operation. When the Company ceases to control the subsidiaries, the investment in the subsidiaries will be written down.

The investment in joint ventures is recorded when the Company holds joint control over these companies' financial and operating policies. When the Company ceases to control these companies, the investments in joint ventures will be written down.

The investments in associates are recognized when the Company holds from 20% to less than 50% of the voting rights of those companies and has considerable influence over their decisions on financial and operating policies.

Investments in subsidiaries, joint ventures, associates are initially recognized under original cost and will not be adjusted thereafter for changes in investors' share of net assets of the investee. The historical cost comprises purchase cost and directly attributable expenses to the investment. In a case where the investment is a non-monetary investment, the investment fee is recognized under the fair value of these assets at the date of occurrence.

Provision for loss of investments in subsidiaries, joint ventures, and associates is made when the investee suffers from loss leading to possible loss of capital of investor or the value of the investments is devalued. The basis for making provisions is based on the consolidated financial statements of the investee (if it is a parent company), and the investee's financial statements (if it is an independent enterprise without subsidiaries).

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***3. Principle for accounting financial investments (continued)****Principles for recording equity investments in other entities**

Equity investments in other entities are the investments in other entities' equity instruments but the Company has no control or joint control or has significant influence over the investee.

The investments are stated at the cost including the purchase price and costs directly attributable to the investment. In case of the investments in non-monetary assets, the investment fee should be recorded at the fair value of the non-monetary assets at the date of occurrence.

Regarding the investments the Company holds for a long time (not trading securities) and has insignificant influences over the investees, provision for the loss will be made as follows:

+ If an investment in listed shares or the fair value of the investment is determined reliably, the provision shall be made according to the market values of the shares.

+ If it is impossible to determine the investments' fair value at the reporting date, the provision will be made based on the loss that the investee suffers. The basis for making provision for loss of investments is the consolidated financial statements of the investee (if it is a parent company), and the investee's financial statements (if it is an independent enterprise without a subsidiary).

**4. Principle for recording trade receivables and other receivables**

**Principle for recording receivables:** At cost less provision for doubtful receivables.

The classification of the receivables as trade receivables, internal receivables and other receivables depends on the nature of the transaction or relationship between the company and the debtor.

**Method of making provision for doubtful receivables:** Provision for doubtful debts is estimated for the loss value of the receivables, other held-to-maturity investments similar to doubtful debts that are overdue and undue, but are likely to become possibly irrecoverable due to insolvency of debtors who go bankruptcy, making procedures for dissolution, go missing or run away, etc.

**5. Principle of recording inventories**

**Principle of recording inventories:** Inventories are stated at cost less the provision for the devaluation and provision for obsolete or deteriorated inventories.

**Costs are determined as follows:**

- Raw materials and merchandise consists of purchase cost, transportation cost, and other costs incurred in bringing the inventories to their present location and condition.
- Finished goods: include costs of raw materials, direct labor, and related manufacturing overhead costs, which are allocated based on direct raw material costs/normal operation levels/land use rights costs and other related overhead costs incurred during the construction of real estate.
- Work-in-progress: include direct material costs, direct labor costs, and manufacturing overhead costs incurred during the construction of unfinished construction projects...

**Method of calculating value of inventories:** weighted average cost.

**Method of accounting for the inventories:** Perpetual method

**Method of making provision for the devaluation of inventories:** Provision for the devaluation of inventories is made when the net realizable value of inventories is lower than their original cost. Net realizable value is the estimated selling price less the estimated costs of completion and selling expenses. Provision for the devaluation of inventories is the difference between the cost of inventories greater than their net realizable value. Provision for the devaluation of inventories is made for each inventory with the cost greater than the net realizable value.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***6. Principles for recording and depreciating fixed assets****6.1. Principles for recording tangible fixed assets**

Tangible fixed assets are stated at the original cost less accumulated depreciation. The original cost of a tangible fixed asset comprises all expenditures of bringing the asset to its working condition and location for its intended use. The expenses incurred after initial recognition are capitalized when they have resulted in an increase in the future economic benefits from the use of those tangible fixed assets. The expenses which do not meet the above conditions are expensed in the period.

When the assets are sold or disposed of, their original costs and the accumulated depreciation which have been written off, and any gain or loss from the disposal of assets are recorded as income or expense during the period.

**6.2. Principles for recording intangible fixed assets**

**Intangible fixed assets** are stated at cost less accumulated amortization. The original cost of an intangible fixed asset comprises all expenditures of bringing the asset to its working condition and location for its intended use.

**6.3. Method of depreciating fixed assets**

Fixed assets are depreciated on straight line basis over their estimated useful lives. Useful life means the duration in which the tangible fixed assets produce their effect on production and business.

*Estimated useful lives of the fixed assets are as follows:*

<i>Factories and structures</i>	<i>5 - 50 years</i>
<i>Machinery and equipment</i>	<i>6 - 20 years</i>
<i>Means of transportation</i>	<i>6 - 10 years</i>
<i>Management equipment, tools</i>	<i>3 - 10 years</i>
<i>Intangible fixed assets</i>	<i>6 - 8 years</i>

**7. Principles for recording construction in progress**

Construction in progress is stated at the cost. These are all necessary costs for purchasing fixed assets, building, or repairing, improving, extending or equipping the works such as expenses of construction, equipment, compensation, support and re-residence, project management, consultancy on construction investment and other expenses.

This cost is carried forward to increase asset value when the project is completed, the overall acceptance is finished and the assets are handed over and put into a ready-to-use state.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the accounting period from 01/01/2025 to 30/06/2025

Unit: VND

**8. Principles for recording and depreciating investment property**

**Principle for recognizing investment property:** Investment property are recorded at cost less accumulated depreciation.

**The original cost of investment property:** Includes all costs in cash or cash equivalents incurred by the company, or the fair value of the consideration given to acquire the investment property, up to the purchase date or completion of construction of the investment property.

The original cost of investment property acquired includes purchase price and directly attributable costs, such as Legal consulting service fees, registration tax, and other related costs.

Expenses related to investment properties arising after initial recognition are recognized as operating expenses in the period, unless such expenses can reliably be attributed to future benefits arising from the investment property that exceed its originally assessed standard of performance, in which case, they are capitalized into the cost of the investment property.

When the investment properties are sold, the original cost and its accumulated depreciation are derecognized, and any gain or loss is recognized as expense or income in the period.

**The method of depreciating investment property:** Depreciation is recognized on the straight-line method over its estimated useful life of that investment property.

When there is firm evidence that an investment property's value declined below their market value and impairment loss can be measured reliably, the Company reduces the original cost of the investment property and recognizes a loss in cost of goods sold. When the Investment Property's value increases again, the Company reverses the previously recognized impairment loss, but not exceeding the amount previously written down.

**The estimated useful lives of investment properties are as follows:**

Factories, structures

5 - 50 years

Land use rights with a definite term are amortized in accordance with the term on the land use rights certificate.

**9. Principles for recording prepaid expenses**

The Company's prepaid expenses include actual expenses incurred but related to the operating results of multiple accounting periods. The Company's prepaid expenses include the following expenses: Insurance costs (fire and explosion insurance, car insurance, property insurance, etc.); tools and instruments; fixed asset repair costs; prepaid land rent; business advantages; goodwill; etc.

**Method of allocating prepaid expenses:** The calculation and allocation of prepaid expenses to operating costs for each period based on the straight-line method. Based on the nature and level of each type of expense, the allocation period is as follows: Short-term prepaid expenses are allocated within 12 months; Long-term prepaid expenses are allocated from over 12 months. Prepaid land rental is allocated to expenses using the straight-line method over the lease term.

**10. Principles for recording liabilities**

Liabilities are recorded at the original cost and not lower than the payment obligation.

The Company classifies liabilities into trade payables, internal payables and other payables depending on the nature of transactions and the relationship between the Company and debtors.

At the reporting date, if it is evident that there is an unavoidable loss, an amount payable will be immediately recorded under prudent principles.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***11. Principles for recording borrowings and finance lease liabilities**

Borrowings are the total amounts the Company owes to banks, institutions and other entities (excluding borrowings under the form of bonds or preferred stock issuance which require the issuer to repurchase at a certain time in the future).

**12. Principles for recording accrued expenses**

Accrued expenses include costs associated with production and business suspension, interest expenses, costs to provisionally calculate cost of goods sold, finished real estate sold, and accrued annual leave pay, which have been incurred during the reporting period but not yet settled. These expenses are recorded based on reasonable estimates of the amounts payable pursuant to specific contracts and agreements.

**13. Principle for recording unearned revenue**

Unearned revenue refers to revenue that will be recognized in proportion to the obligations that the Company will fulfill in one or more subsequent accounting periods.

Unearned revenue consists of amounts received from customers in advance of one or more accounting periods for the rental of property; interest received in advance of lending or purchasing debt instruments; Differences between installment/deferred payment sales prices and cash sales prices; Revenue corresponding to the value of goods, services, or cash discounts offered to customers in loyalty programs, etc.

The method of allocating unearned revenue is based on the matching principle, which corresponds to the obligations that the Company will fulfill in one or more subsequent accounting periods.

**14. Principles for recording owners' equity****Principle for recording owners' contributed capital**

The owners' capital is the amount initially contributed by members and supplemented by shareholders. Owner's capital is recorded at the contributed capital by cash or assets calculated at the par value of shares issued in the early establishment period or additional mobilization to expand the operation.

**Principles for recording share Premium**

**Share Premium:** Represents the positive difference between the issue price of shares and their par value when shares are first issued or when additional shares are issued, and the differences in increase or decrease of the actual receiving amount against their repurchase price when treasury share is reissued. In case of repurchasing for immediate cancellation on the purchase date, the value of the shares is recorded as a reduction in business capital at the actual repurchase price and this reduction must be detailed by par value and the share premium of the repurchased shares.

**Principles for recording undistributed profit:**

Undistributed profit after tax is recorded at the profit (loss) from the Company's result of operation after deducting (-) the current period corporate income tax and the adjusted items due to the retroactive application of changes in accounting policy and adjustments for material misstatement of the previous years.

The distribution of profits is based on the Company's charter and approved by the Annual General Meeting of Shareholders.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***15. Principles and methods for recording revenues and other income****Principles and methods for recording revenue from goods sold**

Revenue from goods sold should be recognized when all five (5) following conditions have been satisfied: 1. The enterprise has transferred to the buyer the significant risks and rewards of ownership of the goods; 2. The enterprise retains neither continuing managerial involvement as an owner nor effective control over the goods sold; 3. The amount of revenue can be measured reliably; When the contract specifies that buyers are entitled to return products, goods they have bought under specific conditions, the enterprise will record the revenue only when those conditions no longer exist and the buyers do not have the right to return products, goods (except for changing to other goods, services); 4. The economic benefits associated with the transaction have flown or will flow to the enterprise; 5. The costs incurred or to be incurred in respect of the transaction can be measured reliably.

**Principles and methods for recording revenue from services rendered**

Revenue from a service rendered is recognized when the transaction results can be measured reliably. In a case where the services are rendered in several periods, the revenue will be recorded by the part of completed works at the end of the accounting period. Revenue from services rendered is recognized when all four (4) of the following conditions are satisfied simultaneously: 1. The revenue is determined firmly. When the contract specifies that buyers are entitled to return the service they have bought under specific conditions, the enterprise will record the revenue only when those conditions no longer exist and the buyers do not have the right to return service; 2. The economic benefits associated with the transaction have flown or will flow from the supply of the provided service; 3. Part of completed works can be determined at the balance sheet date; 4. The costs incurred or to be incurred in respect of the transaction can be measured reliably.

If the contract result cannot be determined reliably, revenue will only be recognized at the recoverable amount of the recognized costs.

**Principles and methods of recording revenue from leasing properties**

Revenue from asset leasing is recorded based on the allocation of the rental amount received in advance over the lease term.

In cases where the lease term accounts for more than 90% of the asset's useful life, the Company applies the one-time revenue recognition method for the entire pre-received lease payment when the following four conditions are met simultaneously: 1. The lessee has no right to cancel the lease contract and the lessor has no obligation to return the amount received in advance in any case and in any form; 2. The amount received in advance from the lease is not less than 90% of the total estimated rental income under the contract during the lease term and the lessee must pay the entire rental amount within 12 months from the start of the lease. 3. Almost all risks and benefits associated with ownership of the leased asset have been transferred to the lessee; 4. The cost of the leasing activity can be reasonably estimated.

**Principles and methods of recording revenue from real estate sales**

**For projects and project items in which the Company is the investor: revenue from real estate sales is recognized when all 5 conditions are simultaneously satisfied:** 1. The real estate has been fully completed and handed over to the buyer, and the enterprise has transferred the risks and benefits associated with the ownership of the real estate to the buyer. 2. The enterprise no longer retains management rights over the real estate as the owner of the real estate or control over the real estate; 3. Revenue is measured with relative certainty; 4. The enterprise has obtained or will obtain economic benefits from the real estate sale transaction; 5. The costs associated with the real estate sale transaction can be determined.

In case the Company has a separate real estate interior finishing contract with a customer, which clearly stipulates the customer's requirements on design, technique, model, form of real estate interior finishing and minutes of handover of the rough construction to the customer, revenue is recorded upon completion and handover of the rough construction to the customer.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***15. Principles and methods for recording revenues and other income (continued)**

**For revenue from sales of plots:** revenue is recognized when all four conditions are simultaneously satisfied: 1. The risks and benefits associated with land use rights have been transferred to the buyer; 2. Revenue is determined with relative certainty; 3. Costs related to the land sale transaction can be determined; 4. The enterprise has received or will certainly receive economic benefits from the land sale transaction.

**Principles and methods for recording financial income**

Financial Income includes interests, royalties, dividends and profit received, and other financial income (investment in trading securities, liquidation of joint venture capital contributions, investment in associates, subsidiaries, other capital investments; foreign exchange gains; and capital transfer gains), etc.

Revenue from interest, royalties, dividends and profit received is recognized when both of the two following conditions are satisfied: 1. It is possible to obtain benefits from the transaction; 2. Revenue is determined with relative certainty.

- Interest income is recognized based on the time and actual interest rates in each period.

- Royalties are recognized on an accrual basis in accordance with the contract.

- Dividends and profits received are recorded when shareholders are entitled to receive dividends or capital contributors are entitled to receive profits from capital contribution.

When an amount that has been recorded as an income becomes irrecoverable, such irrecoverable or uncertainly recoverable amount must be recorded as an expense incurred in the period, but not recorded as an income decrease.

**16. Principles and methods of recording cost of goods sold**

The cost of goods sold reflects the costs of goods, products and services, investment properties; the production cost of construction products (for construction companies) sold in the period; Costs related to real estate business activities, and other costs recorded in the cost of goods sold or recorded as a decrease in the cost of goods sold in the reporting period. The cost of goods sold is recorded at the date the transaction incurs or is likely to incur in the future regardless of whether payment has been made or not. The cost of goods sold and revenue shall be recorded simultaneously on the matching principle. Expenses exceeding normal consumption levels are recorded immediately to the cost of goods sold on a prudent principle.

**17. Principles and methods for recording financial expenses**

**Financial expenses** include: Expenses or losses from financial investment activities, loan interest expenses, borrowing costs, capital contribution expense in joint venture and associate, short-term securities trading losses, and securities trading transaction costs. Provisions for devaluation of financial investments, loss from sales of foreign currencies, foreign exchange losses, and other financial expenses.

Financial expenses are recorded in detail by their content of actual expenses incurred in the period and determined reliably when there is reliable evidence of these expenses.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the accounting period from 01/01/2025 to 30/06/2025

Unit: VND

**18. Principles and methods of recording current and deferred corporate income tax expenses**

Corporate income tax expense includes current corporate income tax expense and deferred corporate income tax expenses arising in the year, which serves as the basis for determining operating results after tax of the Company in the current fiscal year.

Current Corporate tax expense is the tax payable on the taxable income and tax rate enacted in the current year.

Deferred income tax liabilities are the amounts of income tax payable in the future periods arising from the recording of the deferred income tax payable in the year and reversing the deferred income tax being recorded from prior years. The Company does not record in this account the deferred income tax assets or deferred income tax liabilities arising from the transactions being recorded directly in the owner's equity.

Deferred income tax represents the decrease in deferred income tax expense resulting from the recognition of deferred income tax assets during the year and the reversal of deferred income tax liabilities recognized in previous years.

The Company offsets deferred income tax assets and deferred income tax payables only when the Company has a legally enforceable right to offset current tax assets against current tax payables and deferred income tax assets and deferred income tax payables related to corporate income tax administered by the same tax authority for the same taxable entity; or the enterprise intends to settle current income tax payables and current income tax assets on a net basis.

The tax payables to the State budget will be finalized with the tax office. The difference between the tax payables specified in the book and the tax amounts under finalization will be adjusted when the tax finalization has been issued by the tax office.

**19. Financial instruments****Initial recognition:****Financial assets**

According to Circular No. 210/2009/TT-BTC dated November 06, 2009 (Circular No. 210) by the Ministry of Finance; financial assets are classified properly, for the purpose of presentation in the financial statements, into the financial assets which are stated at fair value through the Income Statement, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The Company decides to classify these assets at the date of initial recognition.

At the date of initial recognition, the financial assets are recognized at cost plus transaction cost that is directly attributable to the acquisition of the financial assets.

Financial assets of the Company comprise cash, short-term deposits, trade receivables and other receivables, loans, listed and unlisted financial instruments and derivative financial instruments.

**Financial liabilities**

According to Circular 210/2009/TT-BTC dated November 06, 2009, financial liabilities are classified properly, for the purpose of presentation in the financial statements, into the financial liabilities which are stated through the Income Statement, financial liabilities determined on an allocated cost basis. The Company decides to classify these liabilities at the date of initial recognition.

At the date of initial recognition, all the financial liabilities are recognized at cost plus transaction cost that is directly attributable to the acquisition of the financial liabilities.

Financial liabilities of the Company comprise trade payables, other payables, borrowings and liabilities and derivative financial instruments.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

**19. Financial instruments (continued)****Value after initial recognition**

Currently, there are no requirements for the re-measurement of the financial instruments after initial recognition.

**Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount reported in the report on financial position if, and only if, there is a currently enforceable legal right to offset the financial assets against financial liabilities or vice-versal and there is an intention to settle on a net basis or to realize the assets and settle the liability simultaneously.

**20. Related parties**

Related parties include enterprises and individuals that directly or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the company, key management personnel, including the Board of Directors, Board of Management, and close members of the family of these individuals and companies associated with these individuals also constitute related parties. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

(\*) This is a business investment cooperation with International Trading and Investment Company Limited to implement the project "Investment in the construction of a Complex of Villas, Townhouses, and Commercial Service Houses in Cau Yen Residential Area" in Tu Ky Town, Tu Ky District, Hai Duong Province, which was approved by the Board of Directors of AAV Group Joint Stock Company (formerly Viet Tien Son Real Estate Joint Stock Company) under Resolution No. 0710-2/2021/NQ/HĐQT-VTSR dated October 7, 2021.

General information about the project: The project developer is International Trading and Investment Company Limited; the total project area is 47,065 m<sup>2</sup>; the total business-eligible area is 16,240 m<sup>2</sup>; the provisional total investment is VND 475 billion, of which AAV Group Joint Stock Company (formerly Viet Tien Son Real Estate Joint Stock Company) contributes 35% (approximately VND 165 billion), and International Trading and Investment Company Limited contributes 65% (approximately VND 310 billion). Profits shall be allocated to the parties (after deducting financial obligations payable to the State as prescribed) based on the actual contributed capital ratio of each party at the time of distribution.

According to Decision No. 754/QĐ-UBND of Hai Duong Province dated March 25, 2020, the project implementation period is 24 months from the signing date of the decision. On March 3, 2022, Hai Duong Provincial People's Committee issued a notice approving an extension of the construction and implementation period of the Cau Yen project for an additional 18 months. As of the reporting date, the project has completed 100% of its technical infrastructure, with a total of 44 houses constructed and completed in exterior rough finishing, including 26 townhouses and 18 commercial service houses. The project has been extended until June 30, 2025, under Decision No. 1754/QĐ-UBND dated July 19, 2024.

International Trading and Investment Company Limited received a notice on land lease payment under Official Letter No. 1966/5/TB/CTHDU dated March 1, 2024, from the Hai Duong Tax Department and, by March 6, 2025, had completed the full payment as required. The company is finalizing procedures to request the competent State authority to issue the Land Use Rights Certificate in accordance with regulations.

On June 25, 2025, Hai Duong Provincial People's Committee issued Decision No. 2419/QĐ-UBND on granting the Land Use Rights Certificate, House Ownership, and Assets attached to land to International Trading and Investment Company Limited for the implementation of the Cau Yen Residential Area project, together with the Certificate issued by Hai Duong Provincial People's Committee on the same date. On June 29, 2025, Hai Duong Provincial People's Committee issued Decision No. 2747/QĐ-UBND approving adjustments to the investment policy of the Cau Yen Residential Area project, Tu Ky Town, Tu Ky District.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***5. Other receivables (continued)**

(\*\*) This is a business cooperation investment with Ngoc Son Construction and Trading One Member Company Limited to implement the project "Investment in the construction and business of the Ngoc Son Residential Area Project" in Hai Tan Ward, Hai Duong City, Hai Duong Province, now Tan Hung Ward, Hai Phong City, which was approved by the Board of Directors of AAV Group Joint Stock Company under Resolution No. 1006/2025/NQ/HĐQT-AAV dated June 10, 2025. General project information: The project investor is Ngoc Son Construction and Trading One Member Company Limited; the estimated total investment capital of the project is VND 499,362,000,000, of which AAV Group Joint Stock Company contributes VND 150,000,000,000 (approximately 30.03% of the total investment capital) and Ngoc Son Construction and Trading One Member Company Limited contributes VND 349,362,000,000 (approximately 69.97% of the total investment capital). Profits are to be distributed between the parties based on their actual contributed capital ratio at the time of distribution. The project construction is scheduled for completion by June 30, 2027. As of the reporting date, the project is in the process of site clearance. Based on the land allocation area as prescribed by the Provincial People's Committee, the investor has coordinated with the local authorities and relevant units to implement compensation for site clearance and has received the land handover on-site for project implementation with a total area of 125,806.7 m<sup>2</sup> out of 126,401 m<sup>2</sup> (achieving 99.53%) handed over in two phases.

(2): Is the deposit for 2 term deposit contracts: Contract No. 01-12/2018/VTB-BIDV/HDTG dated December 25, 2018 and Contract No. 01/2024/HDTG/BIDV-AAV dated December 3, 2024 mortgaged at BIDV for the Tran Hung Dao project.

**(i): the construction cost in progress of Yet Kieu Project.**

The East of Yet Kieu Road Residential Area Construction Investment Project, located in Cong Hoa Ward, Chi Linh City, Hai Duong Province, is implemented on an area of 199,559 m<sup>2</sup> with a total investment in technical infrastructure items of VND 214.65 billion according to the Investment Certificate. Ten items of the project are under construction: site leveling has reached 90%; roads 85%; planting of trees and grass lawns (sidewalk trees) 80%; stormwater drainage 85%; wastewater drainage 85%; water supply and fire protection 85%; telecommunications 85%; street lighting 85%; relocation of 22kV and 35kV medium-voltage lines 80%; and 0.4kV residential electricity 85%. Four items have not yet commenced construction: 22kV power lines and transformer stations; wastewater treatment plant; digging holes, backfilling with topsoil, tree pits, and walkways (central green areas); and canals T1, T2 together with two bridges across Canal T1.

According to Decision No. 1632/QĐ-UBND dated April 26, 2021 of the People's Committee of Chi Linh City approving the third partial adjustment of the 1/500 detailed construction planning for the East of Yet Kieu Road Residential Area Project, the project land boundary was adjusted to exclude an overlapping area of 4,208.08 m<sup>2</sup>. As a result, the Company was required to carry out procedures to adjust the project in line with the approved planning. On August 20, 2024, AAV Group Joint Stock Company submitted a written request to adjust the East of Yet Kieu Road Residential Area Project (formerly Chi Linh Town, now Tran Hung Dao Ward, Hai Phong City) together with relevant documents regarding boundary adjustments, total investment scale, and project implementation schedule. The application dossier is currently under review by the Department of Planning and Investment, which is collecting opinions from relevant departments and agencies for submission to the Provincial People's Committee in accordance with regulations.

Pursuant to Decision No. 2087/QĐ-UBND dated June 18, 2025 of the People's Committee of Hai Duong Province on approving the adjustment of the investment policy for the East of Yet Kieu Road Residential Area Project in Chi Linh (now Chi Linh City), the project is required to complete and hand over the entire technical infrastructure system before Quarter III of 2026, and complete the entire project before Quarter III of 2027.

**(ii): the construction in progress of the Con Son Project.**

The investment project "Côn Sơn – Kiếp Bạc Garden Villa Tourism Complex" is located in Cong Hoa Ward, Chi Linh City, Hai Duong Province. The project covers a total area of 906,800 m<sup>2</sup>, with an estimated total investment capital of VND 550,005,370,000. The project was officially approved under Decision No. 695/QĐ-UBND dated February 13, 2018, issued by the People's Committee of Hai Duong Province. Expenses incurred to date mainly include costs related to the preparation of application dossiers, obtaining the investment registration certificate, and land surveying. The Land Clearance Council has completed inspection and handed over 68 out of 73 land clearance files for review and approval. Currently, the project is in the stage of Environmental Impact Assessment (EIA) evaluation and appraisal by the Ministry of Natural Resources and Environment.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***7. Long-term assets in progress (continued)****(iii) : the construction in progress of the Tran Hung Dao Project**

Project: Construction of the Residential Area East of Tran Hung Dao Street with a total planned area of 89,146 m<sup>2</sup>. The project was approved under the detailed planning 1/500 pursuant to Decision No. 3846 dated December 11, 2017. AAV Group Joint Stock Company (formerly known as Viet Tien Son Real Estate Joint Stock Company) won the bid and signed Investment Contract No. 01/2019/HĐ-ĐT for the construction of the residential area east of Tran Hung Dao Street, Sao Do Ward, Chi Linh City. The incurred costs include compensation for site clearance, preparation of design documents, and surveying. The project has been approved by the Hai Duong Provincial People's Committee for land price, and the Hai Duong Tax Department has issued a notice on land lease payment and land use tax. On April 16, 2024, the Hai Duong Provincial People's Committee issued Decision No. 1461/QĐ-UBND approving the adjustment of the investment policy for the Construction Project of the Residential Area East of Tran Hung Dao Street, Chi Linh City (under this decision, the project implementation timeline is extended until September 30, 2026). On March 19, 2025, the Company paid VND 12,494,454,000 for site clearance compensation according to Official Letter No. 109/CV-HĐGPMB dated March 19, 2025, thereby fulfilling its obligations for site clearance for this project.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/06/2025**Unit: VND***10. Financial risk management policies and objectives**

The risks from financial instruments include market risk, credit risk and liquidity risk.

The Board of Management considers the application of management policies for the above risks as follows:

**10.1. Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market prices. There are three market risks: interest rate risk, foreign exchange risk and other price risks, for example, risk of stock price. Financial instruments affected by the market risks include borrowings and liabilities, deposits, and available-for-sale investments.

The following sensibility analysis relates to the financial position of the Company as at 31 December 2024 and 30 June 2025.

The sensitivity analysis has been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and the proportion of the financial instruments in foreign currencies are all constant.

When calculating the sensibility analysis, the Board of Management assumes that the sensibility of available-for-sale liability in the balance sheet and related items in the income statement is affected by changes in the assumption of corresponding market risks. This analysis is based on the financial assets and liabilities that the Company held at 31 December 2024 and 31 December 2023.

**Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risks due to change in the interest rate of the Company mainly relate to the borrowings and liabilities, cash and short-term deposits.

The Company manages the interest rate risk by analyzing the competition status in the market in order to apply the interest rate that brings benefits to the Company and still within the limit of its risk management.

**sensitivity to interest rates**

The Company did not perform a sensitivity analysis to interest rates, as the risk of changes in interest rates at the balance sheet date is not significant.

**Foreign exchange risk**

Foreign exchange risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in the exchange rate. The Company bears risks due to changes in the exchange rate of currencies other than VND related directly to the Company's business.

The Company manages foreign currency risk by considering current and expected market conditions when planning future transactions in foreign currencies. The Company does not use any derivative financial instruments to hedge its foreign currency risks.

**sensitivity to foreign currencies**

The Company did not perform a sensibility analysis to foreign currencies, as the risk of changes in foreign currencies at the balance sheet date is not significant.

**Property risk**

The Company has identified the following risks related to its real estate investment portfolio: (i) Development project costs may increase if there are delays in the planning process. The Company engages planning experts who specialize in specific planning requirements within the project scope to mitigate potential planning risks; (ii) Risk of fluctuations in the fair value of the real estate investment portfolio due to market fundamentals and buyer.

**NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS***For the accounting period from 01/01/2025 to 30/6/2025**Unit: VND***11. Financial assets and liabilities**

The fair value of financial assets and financial liabilities is stated at the value that the financial instruments are convertible in present transaction among partners, except for compulsory sale or disposal.

The Company uses the following methods and assumptions to estimate the fair value:

The fair value of cash on hand and short-term deposits, trade receivables, trade payables and other short-term liabilities is equivalent to the book value of these items because these instruments are in short-term.

The fair value of securities and listed financial liabilities is determined at market value.

For unlisted securities that are regularly traded, fair value is determined as the average price quoted by three independent securities companies at the end of the financial year.

The fair value of securities, financial investments for which fair value cannot be determined with certainty due to the absence of a high liquidity market for the securities, these financial investments are presented by book value.

The following table presents the book value and fair value of financial instruments presented in the Company's Financial Statements:

	Book value		Fair value	
	30/06/2025	01/01/2025	30/06/2025	01/01/2025
